Topic 7 - Introduction to Organic Chemistry - A-Level

...

Organic chemistry is the study of the millions of covalent compounds of the element carbon. These structurally diverse compounds vary from naturally occurring petroleum fuels to DNA and the molecules in living systems. Organic compounds also demonstrate human ingenuity in the vast range of synthetic materials created by chemists.

AQA | Chemistry | Subject content | Organic chemistry
A Level Chemistry students are required to distinguish between primary, secondary and tertiary alcohols.

Organic Chemistry | Revision World

You will then move on to study Physical Chemistry, Inorganic Chemistry and Organic Chemistry. The modules are designed to help you familiarise yourself with essential concepts in Chemistry in an organised, step-by-step way. This is to ensure you will be fully prepared for studying chemistry at Level 4 or higher.
