USA's historie fra 1450-1877 samt kolonisationen af Amerika. Medtager kildeskriver af historisk interesse fra perioden

Woodrow Wilson (1856-1924). It is September 1919 - a meeting hall in a small mid-Western city. A thin man is speaking to a sceptical audience about peace. He has already met the city fathers and has been warned that 'out here' what happens in Europe means very little. Even the late war scarcely impinged on the place, though it had been recognised that it hadn't been altogether good for trade and one or two local boys had died on the fields of France in the very last days of the conflict. The speaker was obviously impassioned, with a preacher's cadence to his voice, and particularly so when he promoted the idea of an international League of Nations to guarantee future peace and ensure that the war into which America had been lured in 1917 really was 'a war to end all wars'. It is noticed that the man is sweating and pale and that he pauses frequently to dab his lips. The price of his campaign for peace - and peace conducted with principle - seems to be a terrible struggle between strong belief on the one hand and failing reserves on the other. Woodrow Wilson will live for another five years, but his battle to convince America to join the League is lost and much of the vigour that marked his time as President of his country, as president of Princeton University, even as an enthusiastic college football coach, was left behind in the Hall of Mirrors at Versailles. This book will look at the life of Wilson, from his early years during the American Civil War, through his academic and political career and America's involvement in the First World War, to Wilson's role at Versailles, including the construction of his Fourteen Points, his principles for the reformation of Europe, and the consequences of Versailles for America and on later conflicts.

Give Me Liberty! is the #1 book in the U.S. history survey course because it works in the classroom. A single-author text by a leader in the field, Give Me Liberty! delivers an authoritative, accessible, concise, and integrated American history. Updated with powerful new scholarship on borderlands and the West, the Fifth Edition brings new interactive History Skills Tutorials and Norton InQuizitive for History, the award-winning adaptive quizzing tool. The best-selling Seagull Edition is also available in full color for the first time.

USAs historie indtil 1996

THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts in American history. The colorful anecdotes, first-person quotations, and trademark wit bring American history to life. The 14th edition places an even greater emphasis on the global context of American history through a new feature, Thinking Globally. Revised primary source features excite student interest and help them learn to examine documents the way historians do. Additional pedagogical features make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present primary sources, scholarly debates, and key historical figures for analysis. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Reproduction of the original: State of the Union Addresses by Franklin D. Roosevelt

Mules and Men is a treasury of black America's folklore as collected by a famous storyteller and anthropologist who grew up hearing the songs and sermons, sayings and tall tales that have formed an oral history of the South since the time of slavery. Returning to her hometown of Eatonville, Florida, to gather material, Zora Neale Hurston recalls "a hilarious night with a pinch of everything social mixed with the storytelling." Set intimately within the social context of black life, the stories, "big old lies," songs, Vodou customs, and superstitions recorded in these pages capture the imagination and bring back to life the humor and wisdom that is the unique heritage of African Americans.

For four hundred years--from the first Spanish assaults against the Arawak people of Hispaniola in the 1490s to the U.S. Army's massacre of Sioux Indians at Wounded Knee in the 1890s--the indigenous inhabitants of North and South America endured an unending firestorm of violence. During that time the native population of the Western Hemisphere declined by as many as 100 million people. Indeed, as historian David E. Stannard argues in this stunning new book, the European and white American destruction of the native peoples of the Americas was the most massive act of genocide in the history of the world. Stannard begins with a portrait of the enormous richness and diversity of life in the Americas prior to Columbus's fateful voyage in 1492. He then follows the path of genocide from the Indies to Mexico and Central and South America, then north to Florida, Virginia, and New England, and finally out across the Great Plains and Southwest to California and the North Pacific Coast. Stannard reveals that wherever Europeans or white Americans went, the native people were caught between imported plagues and barbarous atrocities, typically resulting in the annihilation of 95 percent of their populations. What kind of people, he asks, do such horrendous things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.
