Blood Of Roses Edward Iv And Towton

The true story of the White Queen and more, this is a thrilling history of the extraordinary noblewomen who lived through the Wars of the Roses. The events of the Wars of the Roses are usually described in terms of the men involved: Richard Duke of York, Henry VI, Edward IV, Richard III and Henry V

Richard Duke of York lies dead outside the walls of Sandal Castle, lured to his death by false talk of a Christmas truce. His second son Edmund, aged just seventeen, is murdered by Butcher Clifford, his blood staining the cobbles of Wakefield bridge outside the chapel where he had vainly sought sanctuary. The House of York has fallen...but not for long. The Lancastrian army of Margaret of Anjou has reaped the whirlwind

with the treacherous slaughter at Wakefield. Edward of March, Duke Richard's heir, is coming after them, tall, handsome, young and a fearsome warrior...and he wants vengeance for the death of his father and beloved younger brother. He fights his foes at Mortimer's Cross, where Three Suns mysteriously appear in the sky as an omen, and then fares on through an unseasonal snowstorm to the field of Towton...and victory in the bloodiest battle ever fought on English soil. The prize—the Crown of England. From the author of the I, RICHARD PLANTAGENET series A novella of 25,000 words

Richard Duke of York lies dead outside the walls of Sandal Castle, lured to his death by false talk of a Christmas truce. His second son Edmund, aged just seventeen, is murdered by Butcher Clifford, his blood staining the cobbles of Wakefield bridge outside the chapel where he had vainly sought sanctuary. The House of York has fallen...but not for long. The Lancastrian army of Margaret of Anjou has reaped the whirlwind

The Wars of the Roses tore England asunder. Over the course of thirty years, four kings lost their thrones, countless men lost their lives on the battlefield or their heads on the block, and others found themselves suddenly flush with gold. Yet until now, little has been written about the ordinary people who lived through this extraordinary time. Blood and Roses is a gripping, intimate story of one determined family conducting everyday business against the backdrop of a disintegrating society and savage civil war. Drawing on a rare trove of letters discovered in a tumbledown stately home, historian Helen Castor reconstructs the turbulent affairs of the Pastons through three generations of births, marriages, and deaths as they single-mindedly worked their way up from farmers to landed gentry. It is a remarkable chronicle of devotion, ambition, and survival that brings a remote and hazy era to vibrant new life.

The Wars of the Roses, which tore apart the ruling Plantagenet family in fifteenth-century England, was truly a domestic drama, as fraught and intimate as any family feud before or since. But as acclaimed historian Sarah Gristwood reveals, while the events of this turbulent time are usually described in terms of the men who fought and died seeking the throne, a handful of powerful women would prove just as decisive as their kinfolks ' clashing armies. A richly drawn, absorbing epic, Blood Sisters reveals how women helped to end the Wars of the Roses, paving the way for the Tudor age—and the creation of modern England.

'The Hollow Crown is exhilarating, epic, blood-and-roses history . . . Jones's material is thrilling . . . There is fine scholarly intuition on display here and a mastery of the grand narrative; it is a supremely skilful piece of storytelling.' Sunday Telegraph The fifteenth century saw the crown of England change hands seven times as the great families of England fought to the death for power, majesty and the right to rule. The Hollow Crown completes Dan Jones' epic history of medieval England, and describes how the Plantagenets tore themselves apart to be finally replaced by the Tudors. Some of the greatest heroes and villains in British history were thrown together in these turbulent times: Henry V, whose victory at Agincourt and prudent rule at home marked the high point of the medieval monarchy; Edward IV, who was handed his crown by the scheming soldier Warwick the Kingmaker, before their alliance collapsed into a fight to the death; and the last Plantagenet, Richard III, who stole the throne and murdered his own nephews, the Princes in the Tower. Finally, the Tudors arrived - but even their rule was only made certain in the 1520s, when Henry VIII ruthlessly hunted down his family's last remaining enemies. In the midst this tumult, chivalry was reborn, the printing press arrived and the Renaissance began to flourish. With vivid descriptions of the battle of Towton, where 28,000 men died in a single morning, and the Battle of Bosworth Field, at which Richard III was hacked down, this is the real story behind Shakespeare's famous history plays.

To contemporaries, the Wars of the Roses were known collectively as a " cousins' war. " The series of dynastic conflicts that tore apart the ruling Plantagenet family in fifteenth-century England was truly a domestic drama, as fraught and intimate as any family feud before or since. As acclaimed historian Sarah Gristwood reveals in Blood Sisters, while the events of this turbulent time are usually described in terms of the male leads who fought and died seeking the throne, a handful of powerful women would prove just as decisive as their kinfolks' clashing armies. These mothers, wives, and daughters were locked in a web of loyalty and betrayal that would ultimately change the course of English history. In a captivating, multigenerational narrative, Gristwood traces the rise and rule of the seven most critical women in the wars: from Marguerite of Anjou, wife of the Lancastrian Henry VI, who steered the kingdom in her insane husband's stead; to Cecily Neville, matriarch of the rival Yorkist clan, whose son Edward IV murdered his own brother to maintain power; to Margaret Beaufort, who gave up her own claim to the throne in favor of her son, a man who would become the first of a new line of Tudor kings. A richly drawn, absorbing epic, Blood Sisters is a tale of hopeful births alongside bloody deaths, of romance as well as brutal pragmatism. It is a story of how women, and the power that women could wield, helped to end the Wars of the Roses, paving the way for the Tudor age—and the creation of modern England.

Edmund Beaufort, Duke of Somerset, finds himself exiled in France when Warwick the Kingmaker puts Edward IV on the throne of England. Desperate to return the throne to the rightful King Henry VI, Beaufort finds himself caught between Henry's bitter wife Marguerite of Anjou and the French 'Spider' King Louis until Edward and Warwick fall out in spectacular style and, at Louis' urging, Warwick becomes their unlikely ally. Set on the rich stage of the Wars of the Roses, this is a tale of intrigue, love and war that can only end in tragedy.

When Edward of York seized the English throne in 1461, he could have chosen any bride he wanted, but it was the beautiful widow, Elizabeth Wydeville, who captured his heart. A new assessment of the tumultuous life of the real White Queen and her husband

Richard Duke of York lies dead outside the walls of Sandal Castle, lured to his death by false talk of a Christmas truce. His second son Edmund, aged just seventeen, is murdered by Butcher Clifford, his blood staining the cobbles of Wakefield bridge outside the chapel where he had vainly sought sanctuary. The House of York has fallen...but not for long. The Lancastrian army of Margaret of Anjou has reaped the whirlwind

with the treacherous slaughter at Wakefield. Edward of March, Duke Richard's heir, is coming after them, tall, handsome, young and a fearsome warrior...and he wants vengeance for the death of his father and beloved younger brother. He fights his foes at Mortimer's Cross, where Three Suns mysteriously appear in the sky as an omen, and then fares on through an unseasonal snowstorm to the field of Towton...and victory in the bloodiest battle ever fought on English soil. The prize—the Crown of England. From the author of the I, RICHARD PLANTAGENET series A novella of 25,000 words

The events of the Wars of the Roses are usually described in terms of men involved; Richard, Duke of York, Henry VI, Edward IV and Henry VII. The reality though, argues Sarah Gristwood, was quite different. These years were also packed with women's drama and -- in the tales of conflicted maternity and monstrous births -- alive with female energy. In this completely original book, acclaimed author Sarah Gristwood sheds light on a neglected dimension of English history: the impact of Tudor women on the Wars of the Roses. She examines Cecily Neville, the wife of Richard Duke of York, who was deprived of being queen when her husband died at the Battle of Wakefield; Elizabeth Woodville, a widow with several children who married Edward IV in secret and was crowned queen consort; Margaret Beaufort, mother of Henry VII, whose ambitions centred on her son and whose persuasions are likely to have lead her husband Lord Stanley, previously allied with the Yorkists, to play his part in Henry's victory. Until now, the lives of these women have remained little known to the general public. In BLOOD SISTERS, Sarah Gristwood tells their stories in detail for the first time. Captivating and original, this is historical writing of the most important kind.

The concluding volume to this rousing two-part history of the Wars of the Roses, England ' s longest and bloodiest civil war, narrated by a master historian. England, 1462. The Yorkist Edward IV has been king for three years since his victory at Towton. The former Lancastrian King Henry VI languishes in the Tower of London. But Edward will soon alienate his backers by favoring the family of his ambitious wife, Elizabeth Woodville. And he will fall out with his chief supporter, Warwick " the Kingmaker, " with dire consequences. Told with extraordinary authority and narrative verve, Blood Royal is the second part of a two-volume history of the dynastic wars fought between the houses of Lancaster and York for the English throne from 1450 until 1485. Hugh Bicheno tells the story of the Wars of the Roses as an enthralling, character-driven saga of interwoven families, narrating each chapter from the point of view of a key player in the wider drama. This latest volume describes three Lancastrian attempts to overthrow the Yorkists, ending with the death of Edward's successor, Richard III, at Bosworth in 1485—and the accession of Henry VII and the rise of the Tudor dynasty.
