The IT Security module covers the main skills and knowledge needed for the secure use of ICT in everyday settings, at home and at work. For individuals and organisations, it is important to understand good practice in maintaining a secure network connection, using the internet safely and securely, and managing data and information. This module covers concepts around secure information and data, physical security, privacy, and identity theft.

~~IT Security — ICDL Europe~~

This e-book is the ECDL/ICDL Module IT Security, and sets out essential concepts and skills relating to the ability to understand the main concepts underlying the secure use of ICT in daily life and to use relevant techniques and applications to maintain a secure network connection, use the Internet safely and securely, and manage data and information appropriately.
