Discovering Great Artists is a creative collection of easy art-appreciation activities for children. Kids will find 110 amazingly fun and unique projects to experience the styles and techniques of the great masters from the Renaissance to the present. A brief biography of each artist is included with each fully illustrated, child-tested art activity that introduces the featured painting. Artists include painters, sculptors, photographers and more.

The book is a timeless art form, one that is as alive today as ever before, and artists continue to explore and explode the boundaries of what a book is and can be. In this beautiful collection, you will experience close-up various aspects of hand-crafted books: covers, bindings, scrolls, folded and origami structures and books made from found objects. You will find richly illustrated and calligraphed pages as well as books created from a variety of printed processes. Ingenuity and creativity abounds in this carefully curated collection of both historically important and modern works.

Secret Lives of Great Artists recounts the seamy, steamy, and gritty history behind the great masters of international art. You'll learn that Michelangelo's body odor was so bad, his assistants couldn't stand working for him; that Vincent van Gogh sometimes ate paint directly from the tube; and Georgia O'Keeffe loved to paint in the nude. This is one art history lesson you'll never forget!

Entertaining and informative, the newly updated Britannica Student Encyclopedia helps children gain a better understanding of their world. Updated for 2015, more than 2,250 captivating articles cover everything from Barack Obama to video games. Children are sure to immerse themselves in 2,700 photos, charts, and tables that help explain concepts and subjects, as well as 1,200 maps and flags from across the globe. Britannica Student is curriculum correlated and a recent winner of the 2008 Teachers Choice Award and 2010 AEP Distinguished achievement award.

This volume assesses the contributions of André Antoine, Konstantin Stanislavski and Michel Saint-Denis, whose work has influenced theatre and training for over a century. These directors pioneered Naturalism and refined Realism as they experimented with theatrical form including non-Realism. Antoine and Stanislavski's theatre direction proved foundational to the creation of the director's role and artistic vision, and their influential ideas progressively developed through the stylized theatre of Saint-Denis to the innovative contemporary theatre direction of Max Stafford-Clark, Declan Donnellan and Katie Mitchell.

The Great Artists introduces readers to 100 of the world's most important artists, from the 13th century to the present, concentrating on their lives, works, ideas, influences, artistic development, contributions, creative output and where they fit in history. Concise and readable, The Great Artists is an interesting, informative and authoritative history of 700 years of fine art for the general reader. Writing with verve and passion, Susie Hodge presents, in chronological order, elegant and often affectionate biographical profiles of 100 of the greatest artists in the history of art. The biographies not only describe the life, development and creations of each artist, but also set these visual composers and their compositions within a broader historical and cultural context. Furthermore, shortlists of 'must-see' masterpieces for each artist give the reader all the information they need to appreciate and understand great art. From the great artists of the high renaissance art to the Dutch masters, and from the rococo and neoclassical movements of the 18th century to romanticism, modernism and contemporary art, the lives of the great artists are as varied and multifaceted as the works of creative genius they produced. A selection of featured artists includes: Mantegna, El Greco, Pissarro, Turner, Seurat, Bellini, Caravaggio, Leighton, Constable, Mucha, Botticelli, Rubens, Manet, Ingres, Klimt, Bosch, Gentileschi, Degas, Géricault, Munch, da Vinci, Poussin, Whistler, Corot, Kandinsky, Grünewald, Velazquez, Homer, Hiroshige, Matisse, Dürer, Rembrandt, Cézanne, Delacroix, Mondrian, Michelangelo, Steenwyck, Monet, Millet, Malevich, Raphael, de Hooch, Rodin, Courbet, Klee, Titian, Vermeer, Renoir, Bouguereau, Marc, Holbein, Canaletto, Gauguin, Rossetti, Picasso, Bronzino, Hogarth, van Gogh, Millais, Hopper.

"Good Earth Art" contains over 200 easy fun art projects that develop an awareness of the environment and a caring attitude towards the earth. Projects use common materials collected from nature or recycled. The book is filled with sensible creative ideas to help recycle and reuse through art, for all ages, and includes a charted Table of Contents, two indexes, and a great list of environmental resources. 1992 Benjamin Franklin Gold Award 1992 Midwest Book Association Gold Award for Excellence

2011 Updated Reprint. Updated Annually. Namibia Oil and Gas Exploration Laws and Regulation Handbook

The Portraits series fills one of the longtime gaps in student-level piano repertoire by presenting colorful, fun-to-play pieces in jazz, blues, rock and other popular styles. Portraits invites you on a guided tour through the music of various artists in these styles, exploring what gives each artist his or her own special sound, while the progressively arranged original pieces allow you to try out these styles on your own. Each piece is accompanied by a biography and photo of the artist who inspired it, listening suggestions and specially tailored preparatory exercises. While the Portraits books are recommended for students age 12 and older, younger musicians will certainly enjoy playing the pieces under the guidance of a teacher. A CD that demonstrates all the examples and allows you to play along (with solo keyboard or full band) is also available. The Portraits series is designed to complement all popular piano methods, including adult methods.
