Manuel d'installation GPL version 1  
2 COMPONENT PARTS AND THEIR INSTALLATION 2.1  
PRESSURE REDUCER The pressure reducer (image  
1) vaporize the LPG through the engine  
cooling circuit and it also reduces the gas  
pressure in order to satisfy the right  
working process. The two palstic LPG water  
connection allows to connect the reducer to  
the engine cooling circuit.

LP-Gas Serviceman's Manual

Xtratech™ has a single coil design with 142% wider waterways\* to prevent the risk of debris blockage, and an overall improved water flow. With this beast at its heart, the E-Combi ONE is powerful, but also extremely smart. Its 1:7 modulation ratio means it can adapt to provide the desired heating and hot water, while simultaneously keeping fuel bills low.
