With page upon page of names like Melchizedek, Mephibosheth and Meshelahiah, hundreds of stories – some touching, others humorous and still others that are gruesome, sometimes difficult-to-understand theology and strange visions, who wouldn't feel overwhelmed and confused about the Bible? How does it all fit together? But imagine that the Bible is a 1 000 piece puzzle. It's easier to figure out what you're putting together if you have the picture on the box to go by and the corners and straight edges as guides. The chapters in this book provide the puzzle's box cover, corners and straight-edged pieces, providing you with the key to unlock the secret of the Bible. Putting together the Puzzle of the Bible breaks up both the Old and New Testament in digestible chunks, or 'eras'. When you read or study Bible passages, the knowledge of those eras will enable you to place the passage in its chronological context and easily understand how the puzzle fits together. Putting together the Puzzle of the Bible is ideal for those who have little or no familiarity with the Bible or for pastors and lay leaders to help teach a better understanding of the Word of God.

The chapters in this book provide the puzzle's box cover, corners and straight-edged pieces, demystifying the whole picture of what you are assembling.

A model is dead in Central Park, and the only witness to the crime is a horse: "A most readable and entertaining story" (The New York Times). The evening's party is over, and modeling sensation Violet Feverel wants to get in a quick horse ride before the dawn breaks. She saddles up Siwash the stallion, and gallops onto the Central Park bridle path, eager to begin what will be the last ride of her life. On the other side of the park, Miss Hildegarde Withers—schoolmarm and expert sleuth—breaks into a grin when she hears a patrolman's radio mention a "Code 44." As she knows all too well, "Code 44" means a dead body—and "dead bodies" mean adventure. Miss Withers follows the cop to the crime scene, where they find Violet Feverel lying dead, having apparently fallen from her horse. But if she died when she hit the ground, then why is Siwash marked with a spot of blood? For Miss Withers, answering this question will prove more exciting than an afternoon at the races—and much more risky. The Puzzle of the Red Stallion is part of the Hildegarde Withers Mysteries series, which also includes The Penguin Pool Murder and Murder on the Blackboard.

On vacation in California, the spinster sleuth stumbles onto the case of a man murdered in mid-air—" [Withers is] still one of the best" (Anthony Boucher). Because of the fog, the man in the brown suit arrives five minutes late for the ferry to Catalina Island. If he wishes to reach his destination today, his only option is the Dragonfly, a twelve-seat prop plane that makes up in speed what it lacks in comfort. The ride is bumpy, and all of the passengers—including a honeymooning couple, a film producer, and a would-be adventuress—find themselves feeling queasy. But none react as badly as the man in the brown suit, who sweats, shakes, and screams, "I'm dying! I don't want to die!"—and by the time they reach Catalina, he already has. Vacationing schoolmarm Hildegarde Withers notices the corpse when they're taking it off the plane. An amateur sleuth with a nose for murder, it doesn't take her long to deduce foul play. But which of the passengers was dastardly enough to commit murder in mid-air? The Puzzle of the Pepper Tree is part of the Hildegarde Withers Mysteries series, which also includes The Penguin Pool Murder and Murder on the Blackboard.

A corrupt politician's trophy wife is targeted during a train ride: "The best of the Hildegarde Withers stories, and that is saying a good deal" (The New York Times). Oscar Piper doesn't belong on Mexican trains. A New York City detective, he's in the Dominican Republic as part of an international delegation come to cut the ribbon on a new transcontinental highway. This grants him the honor of a trip to Mexico City on the hottest, dustiest train in North America—a crowded slow coach that's about to become a crime scene. The alderman's wife does not know how the bottle of Elixir d'Amour got into her bag. She only knows that when the porter smelled it, he dropped dead. She seems to have been the intended target for the poisoned perfume—but who would want to kill a corrupt politician's trophy wife? Oscar sends a wire to his friend Hildegarde Withers, a schoolteacher and amateur sleuth, whom he knows will not wilt in the Mexican heat. Before she begins her investigation, she has only one question: "¿Cómo se dice 'murder'?" The Puzzle of the Blue Banderilla is part of the Hildegarde Withers Mysteries series, which also includes The Penguin Pool Murder and Murder on the Blackboard.

Those who do not know history are doomed to repeat it. Using the historical record of fascist regimes, Eric D. Williams draws hauntingly similar characteristics used by former fascist regimes currently unfolding in the United States. Williams establishes eight undisputable points arising from the current administration, and offers valid points to stop the slide towards fascism by taking back America by the people, for the people.

The Puzzle of Poetry offers students a readable, reliable guide to understanding poetry. Instead of carving poems up into their elements, The Puzzle of Poetry describes how experienced readers of poems go about understanding them. Each line, sentence, or syntactical unit in a poem is a clue to the "puzzle." As with crossword puzzles, figuring out the answer to one clue can help you figure out the answer to others. This book teaches the reader to check what they know in a poem against what else they know to find meaning, a systematic but creative approach that can help language to come alive. Each chapter contains a lively and personal discussion of one part of the art of reading poetry; a short guide to writing about poetry is also included. The book introduces students to a variety of poems, from Anglo-Saxon verse to Hamilton and Jay-Z.

Elisabeth Nielsen had a difficult life almost from birth. Her father died when she was young, her mother didn't have much money and Elisabeth was a very lonely only child. As an adult, she finds herself still alone and trapped in an unfulfilling life, existing from day to day, despite working very hard at the law office with little recognition. Following a series of trying events, one eventually pushes her too far. While Ward Barton, athlete, scholar, golden son and lawyer with the same elite law firm, who had every opportunity and gift in life, a person the complete opposite of Elisabeth, begins his own trials in life. Without either knowing, each of their lives fracture and splinter into pieces. The unthinkable happens — every lawyer's nightmare — leaving the law firm and lives in chaos. Eventually all those affected must pick up the pieces, each in his or her own way, to try to make some sense of what transpired.
