Solutions Manual ...

The tensile, creep and dynamic behavior of a PP separator in electrolyte solutions were

investigated. All three measurements indicate that the separator is much softer in solutions.

The MD stiffness of the separator in solutions is only about a half of that measured in air. In the linear viscoelastic range,

# Read Book Solutions To

the creep tendency of the separator may be twice as high in solutions.

Samples that had been soaked in solutions and tested in air later are insufficient to represent the behavior in ...
