The New Outlander Phev A

The Outlander PHEV's powertrain may sound exotic - a conventional 2.0-litre four-cylinder petrol engine works according to a computerised regime with two battery-driven electric motors, one front...

---

Mitsubishi Outlander PHEV Review (2020) | Autocar

While the Japanese car maker added an improved drivetrain and an additional "Sport" mode in the 2020 PHEV model, it only accounts for a fraction of 2020 Outlander sales (of the 8,000 or so units sold in 2020, a little more than 200 have so far been PHEV models). As with previous Outlander PHEV models, the 2021 version comes with EV-priority mode, and can run the 2.4 litre 94kW engine either in series or parallel with the 60kW front electric motor and 70kW rear electric motor.

---

New version of Mitsubishi Outlander plug-in hybrid ...

Key to the PHEV's appeal though, is the low company car tax it attracts, thanks to its clever hybrid system which produces lower CO2 emissions than the conventional petrol-powered Outlander emits....

---

Mitsubishi Outlander PHEV Review 2020 | What Car?

A filing for the National Highway Transportation Safety Administration (NHTSA) shows the 2022 Outlander will indeed have the new Rogue's 2.5-liter four-cylinder engine with 188 horsepower. Compared...

---

All-New 2022 Mitsubishi Outlander Has Nissan Power | CarBuzz

We expect the new Outlander PHEV's powertrain will be broadly similar to the outgoing model's, with the internal combustion engine being supplemented by a pair of electric motors. However, like the...

---

New 2020 Mitsubishi Outlander adopts bold look | Auto Express

The Mitsubishi Outlander PHEV is still the UK's best-selling plug-in hybrid SUV, with 3,167 sales from January to the end of October 2020. The pioneering model also remains one of Europe's favourites, amassing 20,339 sales across the continent in the first three quarters of 2020. In the UK, sales of PHEVs have nearly doubled compared [...]

---

---

Mitsubishi Outlander PHEV | Arnold Clark

The Mitsubishi Outlander PHEV was the first plug-in hybrid SUV, and it has been hugely popular since launch. Understandably so, given that – many years after it first appeared – the Outlander remains one of the most affordable ways into a large plug-in hybrid SUV.

---

Mitsubishi Outlander PHEV review | DrivingElectric

Cars' fuel economy, emissions and other data are more accurately assessed these days thanks to the new WLTP tests that came along in 2017, technically, and the new Mitsubishi Outlander PHEV 4x4 SUV is now said to emit 46g/km CO2 in an improvement over 40g/km, be good for 28 miles on electricity in EV mode, and capable of up to 141mpg.

---

New Mitsubishi Outlander PHEV – what are the differences?

The 2020 Mitsubishi Outlander PHEV is a five-passenger plug-in hybrid SUV offered in two trim levels: SEL and GT. Both are powered by a 2.0-liter four-cylinder engine (117 horsepower) joined by two...

---

2020 Mitsubishi Outlander PHEV Prices, Reviews, and ...

The new Outlander PHEV's petrol engine expands from 2.0 to 2.4 litres, and can now run in two modes: Atkinson for greater efficiency, and Otto for more conventional performance and torque. It uses...

---

New Mitsubishi Outlander PHEV review | Auto Express

The new 2021 Mitsubishi Outlander PHEV will get a larger engine than its current 2.0-liter four-cylinder gasoline. It is a 2.4-liter four-cylinder naturally-aspirated unit that will produce 126 horsepower. This engine is mated to a pair of electric motors and a battery pack. Motors will provide an additional 93 horses.
