The Flight to Objectivity is considered a classic of feminist philosophy. Unbearable Weight, a University of California Press best seller and the first book to draw attention to the profound role of cultural images in the spread of eating problems across race and class, is widely cited, anthologized and used in courses throughout the disciplines. Named a Notable Book of 1993 by the New York Times, it received a Distinguished Publication Award from the Association for Women In Psychology.

Unbearable Weight: Feminism, Western Culture, and the Body Paperback - Jan. 1 2004 by Susan Bordo (Author), Leslie Heywood (Foreword) 4.3 out of 5 stars 17 ratings

In this Tenth Anniversary Edition, Susan Bordo examines how women's fantasies of transcending their material existence have led to narcissistic efforts to reinvent themselves. Infatuated with youth, surrounded by homogenous representations of beauty, they surrender themselves to plastic surgeons in ever greater numbers for larger breasts, smaller noses, collagen-plumped lips and wrinkle-free faces. The author's preface brings the book up to date in 2003 and Leslie Heywood's foreword places Susan Bordo's work in the front ranks of the research on women and their bodies.

"Unbearable Weight is brilliant. From an immensely knowledgeable feminist perspective, in engaging, jargonless (!) prose, Bordo analyzes a whole range of issues connected to the body-weight and weight loss, exercise, media images, movies, advertising, anorexia and bulimia, and much more—in a way that makes sense of our current social

landscape—finally! This is a great book for anyone who wonders why women's magazines are always describing delicious food as 'sinful' and why there is a cake called Death by Chocolate. Loved it!"—Katha Pollitt, Nation columnist and author of Subject to Debate: Sense and Dissents on Women, Politics, and Culture (2001)

Contributors are Susan Bordo, Stanley Clarke, Erica Harth, Leslie Heywood, Luce Irigaray, Genevieve Lloyd, Mario Moussa, Eileen O'Neill, Adrianna Paliyenko, Ruth Perry, Mario S&aacute;enz, Karl Stern, Thomas Wartenberg, and James Winders.

This biography reconstructs the life of the second wife of Henry VIII, drawing on scholarly studies and critical analysis to define an English queen who has been alternately viewed as a whore, martyr, feminist icon and cautionary tale over the centuries.

Subject to Debate, Katha Pollitt's column in The Nation, has offered readers clear-eyed yet provocative observations on women, politics, and culture for more than seven years. Bringing together eighty-eight of her most astute essays on hot-button topics like abortion, affirmative action, and school vouchers, this selection displays the full range of her indefatigable wit and brilliance. Her stirring new Introduction

offers a seasoned critique of feminism at the millennium and is a clarion call for renewed activism against social injustice.

Considering everything from Nike ads, emaciated models, and surgically altered breasts to the culture wars and the O.J. Simpson trial, Susan Bordo deciphers the hidden life of cultural images and the impact they have on our lives. She builds on the provocative themes introduced in her acclaimed work *Unbearable Weight*—which explores the social and political underpinnings of women's obsession with bodily image—to offer a singularly readable and perceptive interpretation of our image-saturated culture. As it becomes increasingly difficult to distinguish between appearance and reality, she argues, we need to rehabilitate the notion that not all versions of reality are equally trustworthy. Bordo writes with deep compassion, unnerving honesty, and bracing intelligence. Looking to the body and bodily practices as a concrete arena where cultural fantasies and anxieties are played out, she examines the mystique and the reality of empowerment through cosmetic surgery. Her brilliant discussion of sexual harassment reflects on the Clarence Thomas/Anita Hill controversy as well as the film *Disclosure*. She suggests that sexuality, although one of the mediums of harassment, is not its essence, and she calls for the recasting of harassers as bullies rather than

sex fiends. Bordo also challenges the continuing marginalization of feminist thought, in particular the failure to read feminist work as cultural criticism. Finally, in a powerful and moving essay called "Missing Kitchens"—written in collaboration with her two sisters—Bordo explores notions of bodies, place, and space through a recreation of the topographies of her childhood. Throughout these essays, Bordo avoids dogma and easy caricature. Consistently, and on many levels, she demonstrates the profound relationship between our lives and our theories, our feelings and our thoughts.

The Flight to Objectivity offers a new reading of Descartes' Meditations informed by cultural history, psychoanalytic and cognitive psychology, and feminist thought. It focuses not on Descartes' arguments as timeless, culturally disembodied events, but on the psychological drama and imagery of the Meditations explored in the context of the historical instability of the seventeenth century and deep historical changes in the structure of human experience. The study includes textual and cultural material that together comprise a gradually unfolding psychocultural reading of the Meditations. Descartes' famous doubt, and the ideal of objectivity which conquered that doubt, are considered as philosophical expressions of a cultural drama of parturition from the

medieval universe, a process that generated new forms of experience, new cultural anxieties, and ultimately, new strategies for control and mastery of an utterly changed and alien world. Themes that figure prominently in recent literature on seventeenth-century philosophy and science—the birth of the mind as “mirror of nature,” and the “masculine” nature of modern science, the “death of nature”—are explored with reference to Descartes as a pivotal figure in the birth of modernity.

In this powerful collection by one of today's leading African American intellectuals, *Keeping Faith* situates the current position of African Americans, tracing the genealogy of the "Afro-American Rebellion" from Martin Luther King to the rise of black revolutionary leftists. In Cornel West's hands issues of race and freedom are inextricably tied to questions of philosophy and, above all, to a belief in the power of the human spirit.

The first collection of its kind, *Provocations: A Transnational Reader in the History of Feminist Thought* is historically organized and transnational in scope, highlighting key ideas, transformative moments, and feminist conversations across national and cultural borders. Emphasizing feminist cross-talk, transnational collaborations and influences, and cultural

differences in context, this anthology heralds a new approach to studying feminist history. Provocations includes engaging, historically significant primary sources by writers of many nationalities in numerous genres—from political manifestos to theoretical and cultural analysis to poetry and fiction. These texts range from those of classical antiquity to others composed during the Arab Spring and represent Asia, the Middle East, Latin America, Western Europe, and the United States. Each section begins with an introductory essay that presents central ideas and explores connections among readings, placing them in historical, national, and intellectual contexts and concluding with questions for discussion and reflection.

A bold, unconventional cultural exploration of the male body and its current place in the Western World examines contemporary perspectives on masculinity in everything from Playboy to Michael Jordan to the recent Viagra craze.
