Like his contemporaries, Ronis documented the unexpected moments, where observation and chance resulted in snapshots that highlight the understated elegance of everyday life.

"J'aime mieux tâter un peu de tout, quitte à porter mon effort sur ce que je fais volontiers et refuser ce qui m'intéresse moins. Etre libre ? Oui, mais ça n'est pas tant la question de la liberté que le goût pour des choses diverses." Ce goût, Willy Ronis le conserve toute sa vie, alliant ses travaux de commande et ses recherches personnelles avec l'enseignement de l'histoire et de la technique de la photographie. Il dit aussi : "je suis le contraire du spécialiste, je suis un polygraphe."

Humanist photographer Willy Ronis's most iconic images of Paris are beautifully produced in this affordable volume. Unparalleled in his ability to portray the Parisian joie de vivre, Willy Ronis captured sheer delight on the faces he photographed, from the Parisian gamin running with an oversized baguette to the cheerful Parisiennes behind the bakery counter and flower market kiosk, and from the dancers in full swing at a summer festival to a gaggle of children in a bumper car tangle. His images are iconic and varied, ranging from lovers embracing in front of the Eiffel Tower to graceful monuments softened by a gauzy fog to a determined factory worker protesting for her rights. Parisian-born Ronis bought his first Rolleiflex camera in 1937 at the age of 27. He trained his camera on the working class neighborhoods of Belleville and Ménilmontant, and strolled the streets of his beloved city, capturing the essence of everyday life in Paris. He memorialized the urban landscape--a lamp-lit bridge or the leafy horse chestnut trees that border the Seine--and typical Parisians--in the metro, sunbathing on the Ile de la Cité, ice skating in the park. This pocket volume of high-quality reproductions is a joyful tribute to Paris and the decorated photographer's finest work.

Published to accompany exhibition held at the Museum of Modern Art Oxford, 16/7 - 1/10 1995.

Smithsonian Institution Press is pleased to join Motta Fotografia, one of Europe's foremost publishers of photography, in presenting a series showcasing the work of postwar masters. Each book includes more than forty duotone or color images and represents an original approach to a particular theme by one of the century's finest documentary or fine-art photographers. Documentary photographer, Ronis, captures Parisians in moments of unalloyed leisure by the Seine river. Reminiscent of impressionist scenes, the images express the tranquillity of warm Sundays and the calm communal spirit created by the water's flow.

Expositions et publications ne se comptent plus, fruits de 75 ans de déclics ininterrompus qui lui ont valu les plus belles récompenses et les plus hautes distinctions. Son œuvre, toute de classicisme, est un vaste chant poétique et social qui dresse un véritable portrait intimiste mais profond de la société française de la seconde moitié du XXe siècle.
